THE WING TO SEE THE SE

Washington, D. C. 20505

Dear Jack:

My colleagues and I are indebted to you for a stimulating and provocative discussion of "The News Behind the Headlines." Your presentation was a great success. Never in the history of the Quest Speaker Program has the auditorium been so filled; in fact, in another part of the building, more than 400 employees watched your presentation via closed-carcuit television.

I very much regret that I had to miss part of your talk, particularly the discussion session. Frank and candid communication between the press and the government is a necessity for the effective functioning of our system. Your efforts have contributed significantly to such an exchange.

Yours,

STANSFIELD TURNER
